

Elixo Smart io

Opt for  
**concentrated  
efficiency**  
for your motorised gate!

**Elixo Smart io adapts to all types of sliding gates:**

-  Up to 4 m and 200 kg.
-  Up to 6 m and 300 kg .

- New or existing gate.
- In wood, steel, aluminium or PVC.
- With or without a rack cover.

**Everyday life made easier**

- Gate opens in 15 seconds (for a 3 metre gate).
- Automatic closure mode.
- Partial opening for pedestrians and cyclists to pass through.
- Option of controlling external lighting, for instance from the driveway, with the remote control and syncing it with movement from the gate.

**Peace of mind assured**

- Automatic obstacle detection.
- Gate locking, once closed, to resist attempted forced opening.
- Secured unlocking by individual key to manually manoeuvre if required.
- Back-up battery in case of power failure (option).

**Quality tried and tested**

- Gentle starting and stopping, preserving the gate and installation's life.
- Complies with safety standards in force (European standard EN 60 335-2-103).
- Tested on 36,500 openings/closures.

**Choose the control method that suits you!**

**CONNEXOAN ACCESS**  
The app for controlling your accesses only.

**TAHOMA**  
The app for managing all the equipment in the home.

**SOMFY +**  
Connect your gate!

*"The geo-location facility means that when I get home, the gate and the garage door open automatically, and the outside lights come on" Welcome!*

*"When I leave home, I close and secure my house in just one click" Security!*

*"A courier calls me? Remotely, from my smartphone, I open the gate, and the outside camera follows the visitor's movements" Everyday simplicity!*
